Packet Processing with Lua

MoonGen is a high-speed packet generator and analyzer that is being developed at this chair. It is almost entirely written in the scripting language Lua and can be used to implement arbitrary packet processing tasks. This is a meta-announcement; we are always offering interesting theses around the topic of packet processing in Lua. We will find something that suits your profile. Just contact us and we will brainstorm about possible topics together!

- Contact us
- Talk about possible topics
- Do something cool!
