## A First Look at DNS over HTTPS

### Motivation

DNS over HTTPS seems to gain traction. Mainly driven from a privacy perspective, it offers a means to avoid eavesdropping on DNS resolution.

This thesis is a first look at DNS over HTTPS.

If you are interested, please get in touch with us so we can discuss further details.

### Your Task

- Understand Motivation and Approach for DNS over HTTPS
- Conduct Passive and Active Measurements to assess adoption and correctness
- Evaluate your results
